

## Spelling Practice Test

Students will study either List 1 or Challenge List spelling words. Each week, they will take a pre-test on Monday. Students who score 9/10 or 10/10 will study the 10 challenge words. Students who score less than 9/10 will study List 1. These are the 10 assigned pattern words. All students will also receive 10 new pattern words to spell correctly. These will be words that the students have not seen before, but that follow the pattern of the week. I am testing to see if students can apply the spelling rules they learn. To give the students a practice test with 10 new words, choose words from the word sort on the homework that follow the same spelling patterns (short vowels, long vowels, etc.).

Students will also choose 5 words to use correctly in sentences. They must underline the word they are using, use correct punctuation, and begin with appropriate capitalization. I will not deduct points if students spell other words incorrectly in these sentences. Points will be deducted for incomplete sentences, no punctuation at the end, no capitalization at the beginning, or if the sentence does not make sense. The students should practice using some of their words in sentences on Thursday night.
